

**Ferrule Printing Sleeve "SLP"** is a specialized type of PVC sleeve designed for marking and identifying electrical cables. It allows for easy and clear cable management by printing numbers, letters, or symbols directly onto the sleeve.

This practical solution is essential for electrical installations, industrial automation, and telecommunication systems, where precise identification of cables is crucial for maintenance, assembly, and troubleshooting.

The sleeve's durable construction ensures that printed markings remain legible, even under challenging conditions.

**Colour** - Soft White

Item Code	ID	Std Length	Price
	mm	mtr	Per Roll
SLP-25	2.5	100	290.00
SLP-3	3	100	315.00
SLP-32	3.2	100	330.00
SLP-35	3.5	100	340.00
SLP-4	4	100	390.00
SLP-42	4.2	100	420.00
SLP-45	4.5	100	445.00
SLP-5	5	100	555.00
SLP-52	5.2	100	580.00
SLP-55	5.5	100	620.00
SLP-6	6	30	735.00
