

PP Unslit and Slitted Conduit Flexible Pipes “FP” are a robust, flexible solution for protecting electrical wiring in various environments.

Made from high-quality Polypropylene (PP), they are engineered to withstand mechanical damage, moisture, and environmental factors, ensuring long-lasting performance both indoors and outdoors.

Available in both unslit and slitted variants, this conduit pipe is ideal for a wide range of applications, including residential, commercial, and automotive wiring.

The unslit variant offers continuous protection, while the slitted variant allows for quick and easy cable installation and removal.

Colours: Black

Applications: Residential and commercial wiring, Outdoor installation wiring, Underground cables, automotive and machinery wiring, industrial wiring etc.

FP/FPS - PP Unslit and Slitted Conduit Flexible

Item Code		Size	Std Length	Price
Unslit	Slitted	mm	mtr	Per Roll
7FP	7FPS	7	200	900.00
10FP	10FPS	10	100	425.00
14FP	14FPS	14	100	475.00
16FP	16FPS	16	50	350.00
20FP	20FPS	20	50	375.00
25FP	25FPS	25	25	260.00
32FP	32FPS	32	25	450.00
40FP	40FPS	40	20	510.00
50FP	50FPS	50	15	555.00
