

SS Flexible Conduit Pipe "SSF" is a high-performance, corrosion-resistant pipe made from premium-grade stainless steel (SS304).

This conduit is designed to provide exceptional protection for electrical wiring in demanding environments where exposure to moisture, chemicals, and extreme temperatures is prevalent. With its stainless steel construction, it offers both flexibility and strength, making it an ideal solution for a variety of industrial, commercial, and even aesthetic applications in confined or complex spaces.

Applications: Wiring in chemical and pharmaceutical industry, marine and offshore installations, food and beverage industry, high temperature environments like power plants, industrial furnaces, medical and healthcare facilities and high-end architectural and aesthetic applications etc.

SSF - SS304 Conduit Flexible

Item Code	Size	Std Length	Price
	mm	mtr	Per Mtr
SSF4	4	-	70.00
SSF5	5	-	70.00
SSF6	6	-	70.00
SSF8	8	-	85.00
SSF9	9	-	90.00
