

Structure:
Light weight and very flexible polyurethane ducting, made of polyester polyurethane wall ; reinforced with rigid antishock PVC helix and a copper wire for grounding

Characteristics:
Industrial version, good abrasion resistance, very flexible, smooth bore

Applications:
Designed for light suction and transport of abrasive particles, granules, waste and dust in plastic, wood, building industries and agriculture

Temperature range:
-30°C to +80°C

Colour:
Transparent, grey helix

Technical Properties

TYPES	PU-PVCAS
Wall	Polyurethane
Spiral	Hard PVC & Copper Grounding wire
Construction	Smooth Interior

Copper Wire

 made in Germany

 **Phoenix**
